Junior Web Developer

Bio

As an aspiring developer, I am a keen problem solver and coding enthusiast. My Economics degree lead me to a career in finance where I picked up some fantastic skills, but still wanted to be more creative and able to actually build something. I took the plunge and have never looked back. I'm looking for a role in a forward-thinking company which challenges me everyday and where I'm able to expand my knowledge and skillset.

Tech Skills

(order of confidence)

HTML5
CSS and SCSS
JavaScript and jQuery
Angular.js
Node.js and Express
Oauth and third-part APIs
Responsive web design
Testing and TDD
Bootstrap
Ruby
Rails
NoSQL and SQL
MongoDB

Soft Skills

Team player
Stand up
Detail orientated
Trouble-shooter and bug-squasher
Flexible
Organised
Public speaker
Empathetic
Dedicated
Desire to learn
Time management

Education

Web Development Immersive at General Assembly
(Jan April 2017)

Economics BSc at The University of Birmingham, 2.2 with honors
(2010 2013)

Luckley House School, Wokingham
A2: AAB, AS: 5As, Head Girl
(2001 2009)

Looking at next: React

Work Experience

Web Development Immersive at General Assembly (Jan April 2017)

13 week intensive coding course, designed to give a solid base of fundamental programming knowledge, experience with specific languages and frameworks that are popular today, and a flexible outlook to tackling new technologies in a fast-moving and ever-changing industry.

Projects which can be viewed at www.hannahwynnjones.com:

'GET YOUR OWN BACK' An animated quiz-based game built using JavaScript, HTML and CSS. ancient-castle-56248.herokuapp.com

'Rate my Bake' A full-stack **RESTful** app using a Mongo database, authentication (inc Facebook and Github), external API, SCSS and testing. Users are able to create an account and post images and articles about recent dishes that they've baked. Users can also view, comment and rate other user's bakes. blooming-falls-61034.herokuapp.com

'Fabric' Group project to create a **MEAN** (Mongo, Express, Angular, Node) stack app with front and back-end testing. Users can login and request to rent an item of clothing from another user. The item owner then can accept/decline the request. If they accept, then the requestor can pay for the item based on a rent per day amount. Emails are sent using nodemailer and stripe was set up to take credit card payments. As well as pair-programming the MVP, I was responsible for the Oauth (facebook, Github and Instagram), Nodemailer and the 'item show page' styling. guarded-refuge-81006.herokuapp.com

'Go Big or Go home' - Full-stack Angular and JavaScript app with a Ruby on Rails 5 API serving the data from a SQL database. Users can design their ideal trip around the world using a Skyscanner API and Google Maps API to pick flights and display the trip, they can then add 'legs' to their trip or choose to go home. sleepy-tor-76650.herokuapp.com

October 2015
- October 2016

Client Services Executive, Invesco Perpetual, Henley on Thames.

As one of the largest investment managers in the UK, Invesco Perpetual is responsible for £86.47bn worth of assets (as at 31 December 2015) invested in Invesco Perpetual ICVCs and investment trusts.

- While working as a **team**, my main duties included writing bespoke **letters** and answering queries on the **telephone** from clients, agents and public.
- Responsible for issuing bespoke cheques and BACS payments to clients from the Henley Head Office.
- While training I raised my quality levels **quickest** in my groups and was subsequently also the most **productive** during my first 3 months.
- Going above and beyond by taking **ownership of a client's dilemma** or request, action the correct response or passing to the correct team, and then seeing it through to the end, usually with a courtesy call to the client.

December 2014
April 2015

Resort Staff Representative, Midori No Ki, Niseko, Japan.

While travelling in Japan, I worked for Midori No ki (MnK), a small company specialising in boutique high end ski holidays and property. Duties included:

- **High-quality, reliable customer service** while building strong client **relationships** to understand client needs and **increase sales**.
- Taking **bookings** for tours, organising **driving** schedules and holiday add-ons.

May 2014
October 2014

Catering Team-Member, The Henley Golf Club, Henley-on-Thames.

As part of a small unit producing high-quality food for groups of up to 150 guests at a time. I was considered a '**safe pair of hands**' at The Henley Golf Club where I have been asked to return several times over the past six years, thus demonstrating that I am considered both **reliable** and **popular** by employers.

Head Chalet Chef, Skiworld, St Anton.

February 2014
April 2014

Managing two assistants and responsible for the daily preparation of breakfast, afternoon tea and a three course dinner for 39 chalet guests. My duties included:

- Running the kitchen's **stock control and re-designing** menus to fit dietary requirements and kitchen size.
- Managing the **budget** to bring expenditure down to an average of 2% below recommended budget.
- Working as a **team**, I was able to use my **logistical and time-management** skills to send out each meal on time.
- A **can-do** attitude and not afraid of working **long hours** which could be up to 16 hours on a transfer day.

January 2014
February 2014

Intern, Erna Low, London.

Worked on filling out the new **website** with Erna Low content, **account reconciliation** and administrative tasks.

Interests

As well as ski seasons in St Anton and Japan, I was treasurer for the University of Birmingham's Ski Society and also repped for NUCO travel - both helping to fuel my love of skiing and the Alps. I've even been known to land a couple of backflips and love deep powder!

I'm also a great a cook and love a good bake sale (doesn't have to be a bake sale, any excuse will do to whip out the butter icing and sprinkles).

I've been so lucky to travel and experience such amazing places to work and live. And one of my favourite hobbies is still to flick through travel blogs and sites to plan my next mini-break.
